

# SUPPLY CHAIN SUSTAINABILITY PROGRAM >>>

**Globalization of the automotive industry has led to the development of increasingly complex supply chains. Understanding and managing potential risks has become a strategic priority for the industry.**

AIAG's member companies are working together to reaffirm our commitment to doing business in an ethical and responsible way to benefit workers, communities and the environment.

We believe in the benefits of a common approach and message and, as such, are providing access to the necessary guidelines, assessment tools, education & training, and other collateral materials needed by companies, of all sizes, to meet/exceed our sustainability performance expectations.

## **HERE'S HOW YOUR COMPANY CAN GET STARTED.**

1. [Automotive Industry Guiding Principles to Enhance Sustainability Performance in the Supply Chain](#)
2. [AIAG Supply Chain Sustainability eLearning](#)
3. [AIAG Supply Chain Sustainability Knowledge Assessment](#) (Practitioner-Level)
4. **Supply Chain Sustainability Workshops**
5. [Supplier Sustainability Self-Assessment](#) (Enterprise-Level)
