

5th Annual IMDS/ELV Summit – Oct. 29, 2008

This premier North American event addresses legislation surrounding global substances of concern (SOC) as well as automotive industry response, actions and information on what is to come.

The IMDS/ELV Summit will prepare Tier 1 through Tier N suppliers to tackle issues surrounding growing producer responsibility and educate you on:

- Changes in global legislation
- New and emerging reporting requirements
- What is coming from the IMDS Steering Committee
- How to use IMDS and more
