Become an AIAG Member

Corporate membership dues are based on annual, global revenue of the candidate organization. Membership (when granted) will include the parent company and all wholly owned subsidiaries or divisions. Limited partnerships and joint ventures are excluded from the corporate membership chain. These organizations are free to secure membership of their own at any time under AIAG membership guidelines. Membership is granted for a period of one year upon payment of annual dues. The first day of the month following initial payment will be referred to as the anniversary date. Membership expires at the close of business on the last day of the month preceding the anniversary date. AIAG membership dues are non-refundable and non-transferable.

AIAG Provides You

A Neutral Environment
Members discuss issues important to the success of the automotive supply chain, in a non-competitive atmosphere.

A Voice
Members have the opportunity to initiate projects to eliminate redundant systems and processes within the industry.

Voting Rights
Member companies are given the opportunity to vote on new or revised standards that will impact the way they do business.

A Connection
Members not only hear about new regulations and requirements first; they help to shape them.

Solutions
Volunteer committees produce working solutions to critical industry problems, creating cost-savings results.

A Network
Professionals from all sectors of the automotive supply chain gather in work groups to share best practices.

AIAG is the catalyst for the global automotive industry’s efforts to establish a seamless, efficient and responsible supply chain.

About AIAG

Established in 1982, AIAG is a unique not-for-profit association where professionals from retailers, suppliers, automakers, service providers, academia and government work collaboratively to streamline industry processes and develop best practices.

Industry-wide Cost Savings

Representatives from member organizations work side-by-side to drive positive change throughout the global automotive supply chain by streamlining common industry processes, system redundancy and eliminating waste.

Industry Collaboration

AIAG is the only automotive association that allows your voice to be heard in the establishment of global standards and guidelines that may affect your company’s bottom line. All members have an equal say in the development of solutions that impact the global supply chain.

Global Representation

AIAG partners with sister organizations in Europe (Odette), Japan (JAMA/JAPIA) and China (CAAM) to influence the global supply chain. Additionally, AIAG works with national and international standards bodies, including ISO, UN/CEFACT, ANSI, SASIG and NIST.

Tools and Resources

AIAG offers cost-effective training and educational conferences on a variety of topics. In addition, members receive reduced rates on the numerous guidelines, standards and other tools produced at AIAG to help companies operate at peak performance.

Initiatives

At AIAG, members become actively involved in industry projects to produce cost-saving industry standards and guidelines. Current initiatives subject areas include:

- **Corporate Responsibility**
  - Chemical Management and Reporting
  - Conflict Minerals
