

JOIN US ON NOVEMBER 3, 2022!

How will the work of industry leaders, experts, and government agencies impact how we manage the automotive and mobility supply chain of tomorrow?

At this year's summit, industry leaders will present their strategic objectives, future plans, and discuss how the supply chain will be managed in the coming years (and even decades) in response to:

- Autonomous and electric vehicles (EVs)
- EV charging infrastructure investments
- Carbon neutrality goals
- Increased and unhindered visibility in the supply chain
- The future strategy of U.S. Customs & Border Protection
- How risk is managed in the future supply chain and much more!

This year's event features speakers from:

- Ford
- General Motors
- Audi Silvercar
- Port of Los Angeles
- U.S. Customs & Border Protection
- Michigan Department of Transportation
- UPS
- Office of Trade UFLPA Implementation Task Force
- Union Pacific Railroad, and more
