

To: Suppliers
From: AIAG
Subject: **China Compulsory Certification**

This bulletin serves as general notification of the China Compulsory Certification (CCC) requirements. CCC is a Safety Licensing System that is a mandatory requirement to manufacture and sell products in the Chinese market.

Currently the commodities listed below are subject to this certification requirement and must be obtained by the suppliers under China's CCC approval system and the parts must bear the CCC mark (mold, print, etch or label) for importation or sale:

- Tires
- Seatbelts
- Safety Glass
- Exterior lighting and light signal device
- Retro reflector
- Brake hose
- Rear-view mirrors (inside & outside)
- Audible warning device (horn)
- Fuel tank
- Door lock and door retention components
- Interior trimming material (seat covers, interior hard trim, carpet, etc.)
- Seats and head restraints

When the parts are certified, supplier is required to provide a copy of certificate received by the Chinese authorized agency to each company.

The commodities required to be certified may be added or deleted and that the suppliers are responsible of keeping abreast of the updates and adjusting their systems accordingly.

More specific information on CCC is available on the following Web Sites:

CCAP: www.ccap.org.cn/
CQC: www.cqc.com.cn/

Known service providers to support your CCC certification are as follows:

China Compulsory Certification Center: www.ccc@ccc-us.com
G & M Compliance Inc: www.gmcompliance.com
TUV: www.us.tuv.com/index.html
